Best Light for a Challenging Workplace

Various functions support flight crew

The cockpit represents the most challenging working environment of the entire plane. Operating the aircraft demands the utmost from the flight crew. Therefore, it is indispensable to provide the best possible working conditions, including an elaborate lighting concept.

UTC Aerospace Systems’ special Reading Lights offer a variety of functions that support the flight crew’s work. They always guarantee optimal and precisely focused illumination according to the requirements of the respective task.

All lights that can be reached while seated offer built-in adjustment capabilities. Lights out of reach have remote control units located in the consoles and accessible while seated. Switches and dimmers grant individual adjustability and dimmability, so that the light beam illuminates exactly what needs to be seen – without affecting other flight crew members.

LED technology for longer lifetime and cost reduction

UTC Aerospace Systems’ range of Flight Crew Reading Lights includes a number of LED variants that feature a long lifetime, low power consumption, low maintenance effort, high resistance to shock and vibration as well as room temperature at touchable parts.

UTC Aerospace Systems has more than 20 years of experience in the use of LED technology and was the first to develop an LED reading light for series production in aircraft. Since then, the company has produces more than 500,000 lights – always focusing research into providing lighting systems that promote the highest levels of passenger comfort.
• Switching on and off and Dimming by turning the front rheostat ring
• Scaling the illuminated area by turning the rear adjustment ring
• Setting the light beam direction by turning the housing in any direction
• Rectangular illuminated area

Technical Data:
• Operating Voltage: 4.5 V DC
• Operating Current: 500 mA
• Power Consumption: 2.3 W max.
• Light Source: LED
• Light Color: White
• Illuminated Area:
  min. 119 mm/4.7”, max. 355.6 mm/14” square
  @ 914.4 mm/36” installation height
• Light Beam:
  adjustable up to 20° off vertical line
• Connector: Glenair Plug Connector
  801-007-16M6-7PB
• Weight:
  0.231 kg/0.51 lbs max. (-05)
  0.222 kg/0.49 lbs. max. (-06)
Map Reading Light 2LA455453-XX

- Switching on and off and Dimming by turning the front rheostat ring
- Scaling the illuminated area by turning the rear adjustment ring
- Setting the light beam direction by turning the housing in any direction
- Rectangular illuminated area

Technical Data:
- Operating Voltage: 28 V DC
- Operating Current: 410 mA ± 7%
- Power Consumption: 11.5 W
- Light Source: Halogen Lamp 8GH004554-28, 133 lm ± 13%, 2,000 h
- Light Color: White
- Weight: 0.380 kg/0.838 lbs max.
- Further Data: see variant table

LED Cockpit and Workstation Lights 2LA456026-XX

- Mounted on the window frame to the left and right of the front pane
- Flood or Spot Light: Beam Spread scalable 12 to 42° by turning the front ring
- Switching on and off and dimming by turning the rear ring
- Setting the light beam direction by turning the housing
- Changing between white and red mode by pushing a button (only -00)

Technical Data 2LA456026-00:
- Operating Voltage: 28 V DC
- Operating Current: White Mode: 35 mA max. Red Mode: 15 mA max.
- Light Color: Dual Mode: White/Red
- Light Intensity: White: 215 lx + 30 % Red: 16 lx + 30 %
- Illuminated Area: min. 68 mm/2.71", max. 251.4 mm/9.898" Ø @ 327.5 mm/12.892" installation height
- Lifetime: 10,000 h
- Housing Color: Black
- Connection: Lead 152.4 mm + 25.4 mm/6" + 1"
- Weight: 0.285 kg/0.63 lbs max.

Technical Data 2LA456026-10:
- Operating Voltage: 28 V DC
- Operating Current: 35 mA max.
- Light Color: White
- Light Intensity: 215 lx + 30 %
- Illuminated Area: min. 68 mm/2.71", max. 251.4 mm/9.898" Ø @ 327.5 mm/12.892" installation height
- Lifetime: 10,000 h
- Housing Color: Black
- Connection: Lead 508 mm + 25.4 mm/20" + 1"
- Weight: 0.275 kg/0.6 lbs max.
Ceiling Mounted Flight Crew Reading Lights 2LA005163-XX

- Mounted on the window frame to the left and right of the front pane
- Switching on and off and dimming by turning a rheostat
- Setting the size of the illuminated area with a diaphragm
- Setting the light beam direction by turning the housing

**Technical Data:**
- Operating Voltage: 28 V DC
- Operating Current: 410 mA $\pm$ 4.3%$^{-}/$-6.3% (180 mA $\pm$10%$^{-}/$-12% for -61)
- Adjustability of Light Beam off neutral position: 60° vertical / 300° horizontal
- Further Data: see variant table

Observer's LED Utility Light 2LA455870-03 / Mounting Base 8GH200013-02

- Switching on and off and continuous dimming by turning a knob
- Optional use as a wander light after taking it off the mounting base

**Technical Data:**
- Operating Voltage: 28 V DC
- Operating Current: 0.125 A max. @ 22 V DC
- Light Source: LED, 3.36 W
- Light Color: White
- Weight: 0.449 kg/0.99 lbs max.
- Lead: Extended Length: 2,438.4 mm/96” max. with Connector 801-007-16M6-7PA
- Mounting Base: 8HG200013-02 to be ordered separately
Cockpit Utility Light 2LA002865-XX / Mounting Base 8GH400698-01

- Switching on and off and dimming by turning a rheostat ring
- Full brightness momentary on switch
- Floodlight or spotlight selectable by turning the front part of the housing
- Optional use as a wander light after taking it off the mounting base

Technical Data:
- Operating Voltage: 28 V DC
- Dimming: continuous
- Mounting Base: 8GH400698-01 to be ordered separately for -02, -05, -50 and -55; included with -04, -20 and -40
- Further Data: see variant table
