European Aviation Safety Agency

Terms of Approval

Design Organisation Approval Certificate
EASA.21J.372

1. Scope of approval
   This Design Organisation Approval has been granted for:
   - designing in accordance with the applicable type-certification basis and
     environmental protection requirements minor repairs and minor changes in the
     following area:
     • Electrical systems
   - demonstrating and verifying the compliance with the applicable type-certification
     basis and environmental protection requirements, and
   - demonstrating to the Agency this compliance.

2. Categories of products
   Large aeroplanes, large and small rotorcraft

3. List of products
   [Not applicable]

4. Privileges
   (a) The holder of this design organisation approval shall be entitled to perform design
       activities under Part 21 and within its scope of approval.
   (b) [Reserved]
   (c) The holder of this design organisation approval shall be entitled, within its terms of
       approval and under the relevant procedures of the design assurance system:
       1. to classify changes to type design and repairs as "major" or "minor".
       2. to approve minor changes to type design and minor repairs.
       3. to issue information or instructions containing the following statement: 'The
          technical content of this document is approved under the authority of DOA ref.
          EASA.21J.372'.

5. Limitations
   [See in 1, above]
   The Scope of Work for Electrical Systems is limited to generators and motors.

Date of issue: 18 November 2013
